## McNamara Arrested For Killing Reese Fowler.

The Crime Committed in Chattanoog: Monday Morning The Wily Detective Spots the Man On the Train, and He is Arrested at the Union Station-Powler Formerly the Leading Sport of Roa

A murderer was arrested at the Union passenger depot yesterday as No. 4 train rolled into the station. A man with a slight limp in his right foot got off the smoking car and walked into the restaurant. He was closely followed by a small man with dark hair and piercing black eyes. The latter was Detective Baldwin. The other was Chris. McNamara, of Chattanooga, who is wanted there on the charge of killing Reese Fowler, formerly of this city.

Baldwin got on the train at Radford. Captain Blanchard, the conductor, informed him that a murderer was reported to be on the train, but he could not pick him out. A negro from Chattanooga had told him as much, but knew no more about it.

Baldwin set about looking for a Chattanooga paper. Not one was on the train. Luckily, however, one was found pinned up over a window in the baggage car. It was a copy of the Chattanooga Press, and contained an account of the killing, along with the description of the murderer.

Baldwin went again into the smoker, and casting a sharp glance at McNamara, was convinced that he was the man wanted. He had readily picked him out from the description.

Baldwin tried to make McNamara suspicious, and right well did the scheme work. McMamara would look up no more. On his was to Roanoke Baldwin telegraphed to Superintendont Hippey to send a policeman to the depot to assist in the arrest.

In the meantime Chief Morris had received a telegram from D. F. Mitchell, chief of police at Chattanooga to make the arrest. The telegram contained a brief description of the marderer. The chief was at the depot and found McNamara in the hands of Baldwin.

McNamara had seated himself at the table in the restaurant to take dinner.

Then Baldwin told him to get up and walk across the floor to prove it. The man did so. There was the limp in the right foot. The height and all was perfect.

McNamara then admitted that he was the man. Just then Officers Trout and Vest and Chief Morris came up. Trout had sworn out a warrant on information from Baidwin, and McNamara was taken to police headquarters. On the way he stopped at Delaney's saloon and took a drink.

McNamara was interviewed by a Times reporter at the station house and said.

Fowler lived in Roanoke several years ago. He was a plasterer and turned out to be a great sport. He came here from Baltimore, and finally ran off with a young woman to Alabama. On returning he deserted her and laft for Tennessee. He was a powerful man, of splendid physique, robust frame and handsome. He figured as an athlete. While in Roanoke he made his headquarters on Railroad avenue, and was the leading sport of the city.

McNamara is a Georgian, and is a gambler also. He was armed with a fine pistol, one chamber of which was empty. This shot was the one which killed Reese Fowler.

ago. A watch was found on Railroad avenue which Woodson had sold to a party. It has turned out to be one of nine taken from a commissary on the Elkhorn, at Simmons creek. So Woodson was held without a warrant while the case was being worked up.

Woodson secured A. J. Oliver as counsel, and when Justice Howerton opened court yesterday evening the case was laid before him.

Oliver charged that Woodson had been leeked up without a warrant for a supposed offense e-mmitted in West Virginia. He had not been regularly committed, but was held at the expense of the city, while an officer, paid by the city for police duty, worked up the case to accommodate another State, although no complaint had ever been made by such State.

Officer Schancks maintained that he had acted on information of a reliable character, and wanted Woodson held until the witnesses could be secured.

Justice Howerton thought that Woodson might be held as a fugitive from justice, but Oliver still insisted that no charge or complaint had ever come from West Virginia, and that Woodson was illegally held.

Schnacks thereupon swore out a warrant for Woodson and the case was set for a hearing next Saturday.

In the meantime it is expected that

rant for Woodson and the case was set for a hearing next Saturday.

In the meantime it is expected that Oliver will get Woodson out on a writ of habeas corpus.

This case calls to mind several of a similar character. Not infrequently have prisoners, (always ignorant negroes) been locked up for several days at a time at police headquarters on commonwealth charges. In each instance such persons are fed and cared for at the expense of the city, while cases against them are worked up by detectives and policemen.

against them are worked up by detectives and policemen.
Sergeant Traynham called the attention of a Times reporter to the fact yesterday that the bills for feeding such prisoners were always to be borne by the city.

The matter is attracting considerable attention and some of the city officials are questioning the right of policemen to work up these foreign cases at the expense of the city.

The mail car doers were all broken out but nothing was taken from it. Express messenger Angel, made a determined resistance and used a revolver to good advantage, but whether any one was killed or not is not definitely known, as he was compelled to shoot through the glass partition of the door. The fight was a fierce one, though it only lasted a few moments. Then one of the masked men placed the cold muzzle of the revolver against his temple and under pressure of a threat against his life he opened the safe door.

The highwaymen took \$3,600 from the strong box. Horses were in readiness, and as soon as the robbery was accomplished they fied to Wet Mountain valley. They did not disturb the passengers, evidently not wishing to stay longer on the ground than the actual necessities of the occasion demanded.

A posse was summened by the sheriff and left for the scene at once. The sheriff got together all the men he could summon on such short notice. They are all, however, men who have seen service, and will make a lively chase after the brigands. Trinidad has been wired to for the noted hounds that have been instrumental already in running down several criminals. They are to be hurried to the scene on a special train and put on the trail as soon as possible. With the efforts being made it is not likely that the daring robbers can escape.
